### HOME INSPECTION COMPANY PLANS GROWTH

A Buyer's Choice Home Inspections USA is pushing for aggressive franchise growth to triple its size in the U.S. in the next two years.

The Pompano Beach-based company wants to expand its franchise from 30 U.S. offices to 100 by 2015. That includes adding more than a dozen locations in South Florida in the next year.

The residential home inspection company has more than a dozen franchisees in Florida, including four in South Florida, with several more in the pipeline, President and CEO Bill Redfern said.

A Buyer's Choice also wants to add to its nearly two-dozen full-time employees at its corporate headquarters, he said.

With few additional startup costs, the total franchise fee is \$29,900, but has been reduced to \$19,990 for a limited time, according to a news release.
