

# Home Inspections Office to Meet Area's Homebuyer Demand

meaningful purchases. Currently, ABCHI is the largest Canadian home inspection business and is poised to become the largest in the world by 2015 with an aggressive U.S. franchise growth strategy.

"My aim is to make home inspections as transparent and understandable as possible for homebuyers of all ages and backgrounds," Dvorak was quoted as saying in a release.

"Knowing our clients' needs and concerns and then providing thorough inspections and comprehensive reports will usher in peace of mind to many area homebuyers. I'm very excited to be bringing ABCHI here."

Dvorak's professional background and his commitment to the ABCHI model makes him a key addition to the ABCHI family, and a valuable asset to the local real estate market.

with nearly 20 years experience in construction, Dvorak looks forward to putting his skills to good use in his new entrepreneurial endeavor.

"The outstanding marketing support and remarkably detailed training A Buyer's Choice Home Inspections offers its franchisees is beyond compare," said Dvorak.

"Combine the concept's winning business model with strong demand here in Spruce Grove, and I feel confident about what the future holds."

Bill Redfern, founder, president and CEO of ABCHI, began the home inspection company in 2005 after more than a decade as a successful real estate broker. Notably, ABCHI is the only major home inspection company with a foundation deeply rooted in the real estate industry. The high quality service delivered resulted in annual average revenue growth of 15 per cent for franchise units in 2012.

"We are excited to be growing with talented people such as Colin joining our family," said Redfern. "Colin is exactly the type of trusted partner homebuyers and realtors in Spruce Grove need to support their inspection needs."

Ideal for corporate escapees in search of greater work-life balance, opportunities to work from home and a fast growing sector with unlimited potential, ABCHI offers franchise investors a turnkey operation. According to company estimates, franchisees can make a healthy living working less than eight hours a day following the ABCHI business model. The low-cost franchise investment includes training, marketing tools and ongoing support from the home office.
